LaCie Big Disk Extreme+

eSATA 3Gbits I Hi-Speed USB 2.0
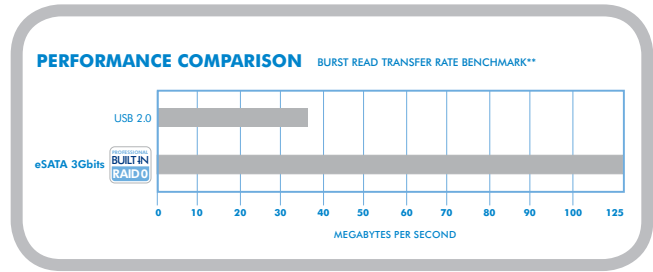

d2 Design by Neil Poulton

Bigger. Faster. Easier.

High Performance Storage

The LaCie Big Disk Extreme+ provides enormous capacity and a transparent, built-in RAID 0 array with no configuration for superior performance. It comes with eSATA 3Gbits for blazing fast speed, while offering Hi-Speed USB 2.0 for universal connectivity with PC or Mac computers. This user friendly, full-featured mega storage solution is perfect for demanding professional applications such as multimedia, small server audio/video and database management.

Ideal For Audio/Video Pros

This powerful hard disk is optimized for media professionals working with high-definition audio, digital video editing, SD video and 2D/3D imaging. The combination of its generous capacity, incredible speed and ergonomic design make it the ultimate solution for data hungry applications and archiving large-scale video projects. Enjoy a higher bandwidth thanks to eSATA 3Gbits, which can reach impressive burst transfer rates of up to 115-125MB/s**.

Advanced Features

The bundled professional EMC® Retrospect® Express software provides advanced backup management and data restoration for Windows and Mac users. Get increased power control with three manual settings - "Auto" for energy efficiency, "On" for instant access, and "Off" for data protection. This fully plug & play drive couldn't be easier to install and use. The exclusive LaCie Setup Assistant, preloaded on the drive, helps you format according to your needs and directly copies the User Manual and Utilities.

Award-Winning d2 Design

The d2 aluminum design draws heat away from the internal disk toward the external casing, which absorbs and dissipates heat for natural cooling. The Big Disk Extreme+ also includes a thermoregulated, progressive smart fan, which keeps the drive safe and prolongs its life and reliability while ensuring quiet operation. Its compact, sturdy body conforms to your work environment and intensive use; it can be stacked, rackmounted or stood upright for maximum versatility.

1TB =

1,400 DivX movies or
270,000 songs or
1,100,000 photos***

· eSATA 3Gbits for fast professional storage

· Built-in RAID 0 for superior performance - no configuration needed

· Automatically back up your data with user-friendly software

· Sturdy aluminum, ergonomic d2 design

Features

- eSATA 3Gbits & Hi-Speed USB 2.0
- EMC Retrospect Express backup software (Mac/PC)
- Triple Power Management: Auto/On/Off
- Unique, heat-dissipating, quiet design
- Stack, rackmount or stand upright
- Plug & play

Box Content

- LaCie Big Disk Extreme+
- eSATA 3Gbits (1m) cable
- USB 2.0 cable (compatible with USB 1.1)
- External power supply
- Drive stand for upright use
- LaCie '1-Click' Backup Software
- SilverKeeper software for automatic backup & file verification (Mac)
- EMC Retrospect Express advanced backup software (Mac)
- EMC Retrospect Express HD advanced backup software (Windows)

System Requirements

- Computer with an eSATA or USB 2.0 port. LaCie recommends the use of LaCie SATA II PCI-X/Express eSATA cards - sold separately
- Windows® 2000, Windows XP, Windows Server 2003, Windows Vista™ / Intel Pentium 500MHz processor or higher
- Mac® OS X 10.4 or later / G4, G5, Intel 500MHz processor or higher
- Minimum 512MB RAM

d2 Desk Rack sold separately

Apple® Time Machine & Leopard Compatible

The LaCie Big Disk Extreme+ is compatible with Mac OS X v10.5 Leopard, including Time Machine, making it an ideal partner for your Mac. Time Machine automatically backs up your Mac's system files, applications, accounts, preferences, music, photos, movies, and documents to an external hard drive and you can easily go back in time to recover anything.
